

Ink Circulating Pump

Flameproof
Motorised / Pneumatic

- For Ink / Adhesive Circulation
- Minimized wastage of ink / adhesive
- 100 % Safe Flame-proof Motor
- S. S. Tank and Tray
- Flow Rate : 25 Ltrs/Min. (Water)
- Highly Efficient Flow Control Valve

Rollers

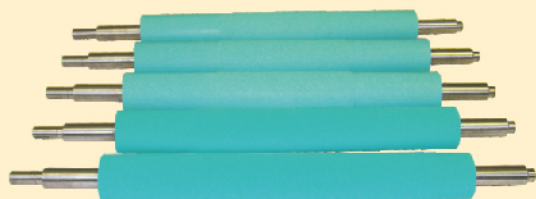

APPLICATIONS

- ◆ Gravure Printing
- ◆ Flexo Graphic Printing
- ◆ Solventless Lamination
- ◆ Solventbase Lamination
- ◆ Adhesive Coating

POLYMERS AVAILABLE

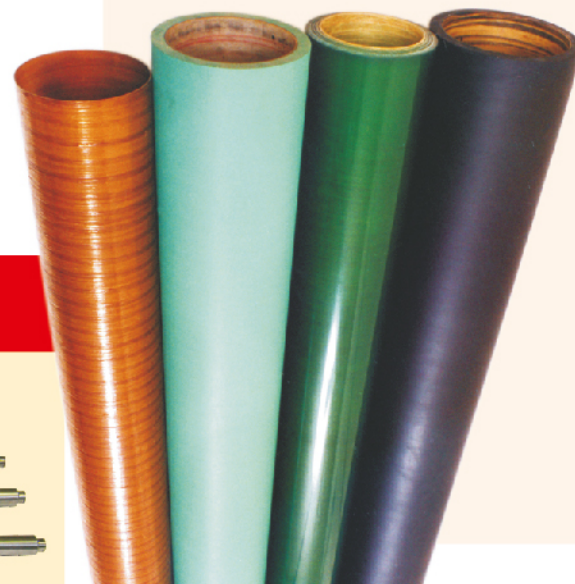

Hyalone, NBR, HNBR, XNBR, Silicon, Neoprene, IIR (Butyl), EPDM etc.

ROLLERS FOR SOLVENTLESS LAMINATION

Quick Change Sleeve

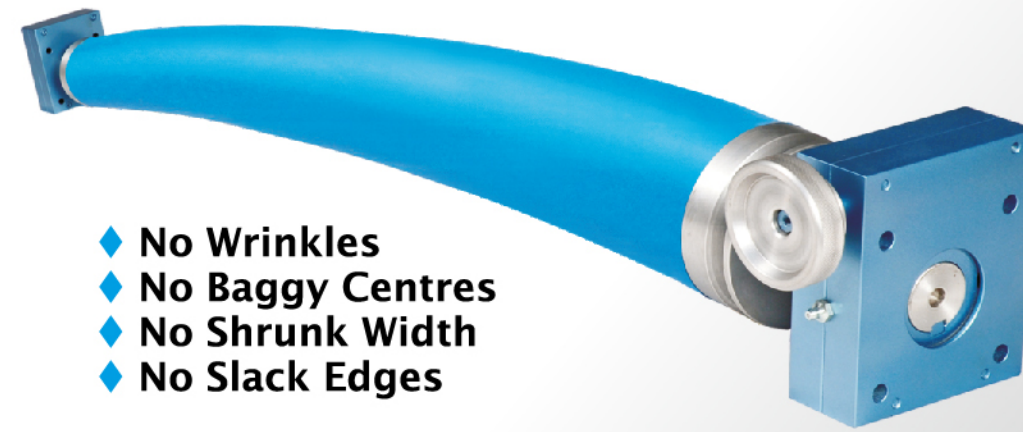

Ideal for Solventless Lamination, Gravure Printing, Flexo Graphic Printing, Adhesive Coating

- ◆ Saves change over time
- ◆ Highly Cost Effective
- ◆ Light Weight - savings in transportation cost
- ◆ Vertical Storage
- ◆ Ease of operation
- ◆ Coatings available to suit all-and-every applications
- ◆ Almost readily available
- ◆ No metal erosion while re-coating. Thus, maintains shell strength and ensures better balancing of rollers.
- ◆ Proven Performance
- ◆ Anti-static property

Wrinkle Removers

Expander Rollers

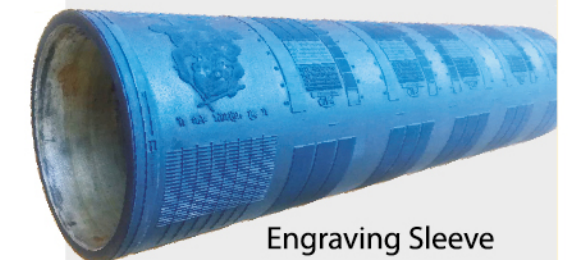

- ◆ No Wrinkles
- ◆ No Baggy Centres
- ◆ No Shrunk Width
- ◆ No Slack Edges

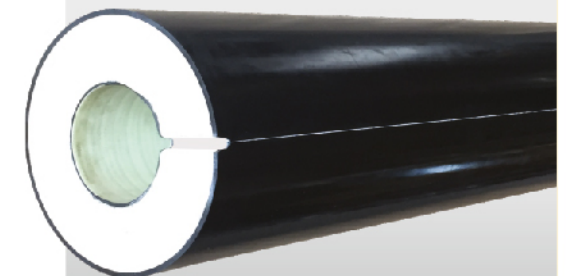

SINCE : 1984

Sleeves for Flexo Graphic Printing

Engraving Sleeve

Polyband Expander

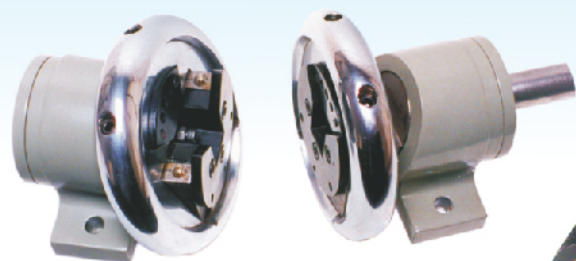

- Essential for thin web, 10 microns or less
- Performs excellent for separating the web after slitting, irrespective of web thickness
- Specially useful in Processing PP & HM
- Sizes : Dis.: 90mm to 140mm
- Length up to : 2500mm

Rubber Grooved Spreader

- Popularly used on Film Plant
- Ideal for very delicate web like Metalized Film
- Individual groove type RH & LH
- Two or Four starts scroll type RH & LH

Core Holding Devices

Safety Chucks

Quick Locks

Air Chucks

shafts

- Air Expandable Shafts
- Mechanical Expandable Shafts
- Multi-Tube Air Shafts
- Ball Type Quick Lock Shafts
- Adaptor Shafts (from 3" to 6")
