

# RUBBER ROLLER GRINDING MACHINE

**Arvind**  
RUB-WEB CONTROLS LTD.  
INDIA

## SETTING STANDARDS WITH ACTION!

The industrial power tool has been leveraged to carry out several functions seamlessly. The major function of the quality-driven Rubber Roller Grinding Machine is – the grinding of Rubber Rollers and Quick Change Sleeves. Innovation-driven design and perfect precision make it the best in class!

**Industry:** • Packaging

### Unique Features

- Innovative design
- Sturdy construction means enhanced durability
- High precision – 0.05-micron grinding
- Transportation – cost and time saving
- Dust collector for suction of rubber dust
- The in-house facility saves time and man-hours

### Application

- Step down & re-grinding of Rubber Roller
- Step down & re-grinding of Quick Change Sleeves

With industry experience of more than four decades to boast, the company has designed and developed a special-purpose Grinding Machine, tailor-made for the Packaging Industry.
